

2008 Road Categorization Guidelines

Categorization

Categories indicate cycling abilities relative to riders of the same sex without regard to age.

- Juniors may ride down one category in races over 50 miles or 2 hours in length.
- SW may ride down one category in a men's event, except SW 1 may ride down 2 categories.

Road Requirements by Category

- 4 → 3: Need 20 points in any 12 month period; experience in 25 qualifying races with a minimum of 10 top ten finishes with fields of 30 riders or more; 20 pack finishes with fields over 50. *Resume must include at least one criterium*
30 points in 12 months is an automatic upgrade
- 3 → 2: Need 25 points in any 12 month period; 40 points in 12 months is an automatic upgrade
- 2 → 1: Need 30 points in any 12 month period; 50 points in 12 months is an automatic upgrade

Qualifying Distance for each Category

Cat.	Class	RR	Crit Duration
4 - 3	Men	25 mi	45 min
	Women	25 mi	40 min
	Junior	25 mi	30 min
3 - 2	Men	50 mi	1 hr
	Women	40 mi	45 min
2 - 1	Men	80 mi	1.25 hr
	Women	50 mi	1 hr

To qualify for upgrading points, races must meet distance requirements.

Time Trials and races shorter than the min. distance are *not* qualifying races. However, if a road race is less than the road race minimum but above the criterium minimum, it will count for upgrading using the criterium points.

GC and stage places count for points, but only up to a max. of 20 points for a cat. 1 upgrade or 15 points for a cat 2 upgrade.

Cat 4's will not receive SR points- each stage that meets qualifying criteria will be given points as indicated in charts to the left.

Omniums are not regarded as a Stage Race.

Downgrades: Requests for downgrades will be evaluated individually. Any rider who in the preceding 12 months never placed in the top 10 in a qualifying race in the rider's category may be assigned to the next lower category.
